

CORE VALUES

The college engages in a process of self and community reflection that would lead us to recognize and heighten awareness of the core values we and our institution have already practiced and to develop an institutional culture that holds it accountable to those values. We are dedicated to meeting the needs of the communities we serve. We are committed towards the mission and vision of the college and focus on student and stakeholder needs. On regular basis new programs and services are designed and to meet the identified needs. The institution has a strong believes in a shared decision-making process. We respect and recognize the expertise of all members of the College community and encourage individual contribution. We treat people with dignity and encourage feelings of self-worth. The institution encourages individual recognition and having a support system for each employee and the student contributions towards the organization. We strive to exhibit quality in staffing, facilities, programs, and services, anticipate needs and respond accordingly. We believe that our similarities and differences are opportunities for establishing a common bond and strengthening the College.
