II) Second Best Practice: Recycling biodegradable solid waste through vermicomposting.

Department of Zoology conducted the Certificate Course in Vermiculture for the students of B.Sc. CBZ. In this session total 40 students were enrolled. Due to pandemic the students studied the course in online mode. The students were trained to prepare a vermicompost pit at home using various easily available materials. Dr. Milind Shinkhede demonstrated the process of preparation of pit.

Many students installed the vermicompost pit at their homes. The department also organized talks by the experts for the students to enhance their understanding.

Officiating Principal
Dada Ramchand Bakhu
Sindhu Mahavidyalaya, Nagpur-47

The vermicompost unit of college was re-installed during the session. The vermicompost and vermi-wash formed is used for the college garden. The manure was also available for sale to public.

The students of M.Sc. Zoology and Botany visited the Govigyan Anusandhan Kendra, Deolapar. The students learnt the process of formation of vermicompost using earthworm by using windrow method. The earthworm helps in converting biodegradable solid waste into nutritive manure which is use in agricultural fields.
