SICKLE CELL TESTING**

Date: 13th Sep 2023

Time: 9:00 AM to 01:30 PM

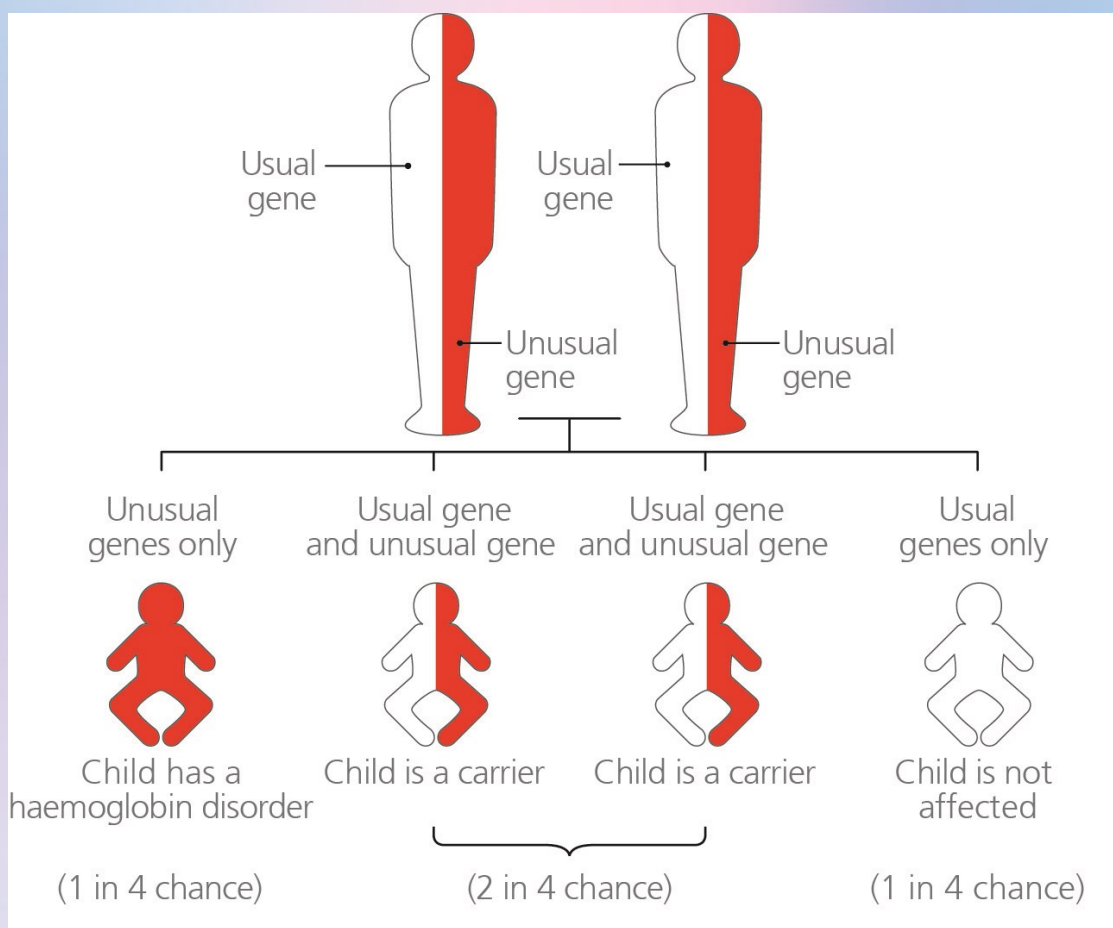

**Venue: Smart Classroom, DRB
Sindhu Mahavidyalaya**

Need for Scanning of Thalassemia and Sickle cell

Sickle cell disease (SCD) and thalassaemia are inherited blood disorders.

If you're a carrier of the sickle cell or Thalassaemia gene, you can pass this to your next Generations.

If a person is found to be a carrier, screening is also offered to their partner before marriage.

So, if both of the parent is a carrier, which may not be detected due to absence or ignorance of symptoms there is 25% chances that the baby is born with major disorder.
