

Details of Soft component :

The Workshops mentioned under Soft Component Activity are essentially modulates current practices into expected outcomes of NEP.

*IKS* which typically looked from separate angle or module needs to be interpreted in association with regular curriculum. The change of student centric teaching has been emphasized in *Effective Pedagogical approaches*. The institute has pride in mentioning that our team is recognized by IISER program and conducting modules. In order to scale up students internship, OJT a strong Network & faith relation is expected in NEP the two workshops *Industry-Academia Interface* and *Internship & Industry Compliance* are dedicated for this purpose. Experts and associated team which has been consulted, has vast experience in the field. *Research Methodology* is an structured intervention by NEP. The Modules have different dimensions based on faculty. Masters Program students from Science & technology and Commerce & Management faculties would be benefited by practice session conducted in this module. *Entrepreneurship Development* needs interaction with exemplar faculties & persons. The purpose of this module is to conjugate the resources and students.

These workshop are focussed on final outcome, making some of them for Teachers and some for Student. Conduction of these workshop would involve experts from specific domain.
