DEPARTMENT OF PHYSICS

While writing I got to know that
writing poem is a piece of art
It's little difficult yet so hard
I tried my best to include all poetic
words which were slipping together
I joined

In theory we have included all the
remaining concepts
Now it's time for all the mess to be
Sweet

I hope you liked this poem and
enjoyed it too
At last but not the least I want
to say thank you

written by
Muskan Bhandari
(A hardworking student)

I don't know after 9 months what
next year will bring
But before this year ends let's let
discuss about Newton's ring

Concentric circular fringes were first
observed by Robert Hooke
But Newton was the first to derive
the explanation that's why his name is
in the book (It's Brian worked and
the title was taken)

In numericals most of us don't get
the answer right
In Newton's ring, interference pattern
is created between 2 surfaces by reflection
of light

By using Plano convex lens and glass
plate the light and dark colour
bands are observed
The thickness is zero at the point of
contact of air film and gradually increases
outward

My rhyming might not be perfect
But the rings were spherical and
an adjacent touching flat

We are famous as Corona (Laid) batch
we still have many queries
Dark and bright rings appear as alternating
and concentric series

We have not prepared a chart for you to show
when viewed with white light ring pattern
appear as colour of rainbow

Between the surfaces there lie the layers
of air
At different thickness wavelength of light
interfere

Yes, you guessed it right
The violet lines were not so bright
when viewed with monochromatic light
Newton's ring appear as dark and
Bright

PROBLEM-SOLVING METHODOLOGY

CASE STUDY

CASE STUDY SOLVING: AIM: ENHANCE PROBLEM-SOLVING TECHNIQUES

CLASS: BBA I SEM

SUBJECT: FUNDAMENTALS OF BUSINESS MANAGEMENT

DADA RAMCHAND BAKRHU SINDHU MAHAVIDYALAYA, NAGPUR
DEPARTMENT OF BBA
ACADEMIC SESSION 2021-22
STUDENT CENTRIC METHOD

The department undertook its effort to make learning more effective through implementing the Student centric approach. This approach made the students learn the topic with more understanding and enthusiasm. The methods used were:

1. Case Study Solving:
Aim: Enhance Problem Solving Techniques
Class: BBA I Sem
Subject: Fundamentals of Business Management

Case 1: 'Serious Business' is a balloon manufacturing firm. With the arrival of foreign firms it is feeling the pressure of improving its business strategy. Because of the firm's advance planning it could not suddenly bring changes in its plans as the whole organization had started implementing the decided plan. But this year the organization wants to ensure success. However, the firm knows that the external environment is changeable and continues to vary in a fast manner. The organization wants to prepare in advance for a better future. It has decided to allocate a portion of its budget specifically for proper planning as it knows there are going to be expenses like Expert's fee, survey charges, etc. Which limitations of planning have been identified in the above case?

Case 2: An established firm has fifty years of experience in shipping industry. The company time and again proves itself as one of the dominant figures in the market. The plan for the whole year is given a lot of importance. According to the owner of the company their plans are the basic structures upon which other important functions of management rest. It is important that the plans are communicated to the employees. The top management ensures that the plans are communicated and implemented at all levels and in all departments. To learn from past mistakes is a habit of this successful company. They prepare plans for short term as well as long term where it can be seen that throughout the year the plans are prepared one after another. Shipping industry needs such dedicated companies. The goals are specific and the activities to achieve these specific goals are undertaken. The company has planned a growth of 20% in revenue this year. Let's see how much it's possible for it to achieve it by the end of the year. In the above case identify the various features of planning highlighted. Which type of plan is indicated in the above case?

2. Online Quiz
Aim: To make learning effective

VIRTUAL EXPERIMENT AND DEMONSTRATIONS

1. Determination of heat of solution of potassium nitrate: https://youtu.be/B_zSbSeJnSk
2. Determination of unknown organic compound: <https://youtu.be/Q06j2GKm7jk>
3. Determination of Fe by Internal Indicator: <https://youtu.be/sh-HC9RMYDO>
4. Basic laboratory techniques: <https://youtu.be/22ZB0ZwvOsQ>
5. Detection of elements by Lassaigne's test: <https://youtu.be/FUo428guKt0>
6. Quantitative estimation: <https://youtu.be/kc0Nc77t5Iq>
7. Determination of concentration of $KMnO_4$ solution: https://youtu.be/kXI_Om-2XYk
8. Determination of the melting point of a compound: <https://youtu.be/xaQUTlruvFU>
9. Separation of a mixture by using different techniques: <https://youtu.be/bkYqqJa5P8w>

USE OF VARIOUS APPLICATIONS/TOOLS FOR TEACHING

PI@ntNet App

Students of Botany understand the application of PI@ntNet and explore its use under the able guidance of the Botany staff of our college. PI@ntNet is an application that allows to identify plants simply by photographing them with a smartphone. Very useful when you don't have a botanist on hand.

Padlet App

Dr. Megha Bhambri, Department of Botany conducted a class activity on the “Characteristics of Pteridophytes” topic which is part of the subject curriculum by using the Padlet App. Once the topic was explained, students were provided with a link <https://padlet.com/meghabhambri2003/class-activity-jxrlm38knowwfc16>, to answer the question on the taught topic to check their understanding on the same.
