Bridge Course 2023-24

Department of Zoology Minutes of meeting

Date: 9/08/2023

A Meeting to start a bridge course in subject Zoology was held on 9/08/2023(Wednesday). It was decided that a Bridge Course in Zoology will be run by department of Zoology after one week of the completion of admission. It is decided that some special courses also advice for advanced, average and slow learner. The Main aim of the course is to provide the students basic understanding of zoological concepts and connecting Students with B.Sc. Zoology Course. It is decided to take exam of bridge course after the completion of course.

DEPARTMENT OF ZOOLOGY

SESSION 2023-24

Curriculum for Bridge course

Curriculum contains four topics based on the syllabus of 11th and 12th standard form a bridge to undergraduate curriculum

Topic I: Kingdom Animalia

Classification, brief idea of five kingdom system,
Characteristic of animal classification,
General characters and classification up to classes (Invertebrates Phylum)

Topic II: Cell Structure and Organization

Grades of organization,
Comparative study of Prokaryotic and Eukaryotic cell,
Cell organelles in Prokaryotes and Eukaryotes

Topic III: Human Health and Disease

Basic concept of Immune system,
Pathogenic Protozoan's
Types of diseases

Topic IV: Ecology and Environment

Environment and its structure
Ecology and Ecosystem
Major causes of pollution

Topic V: Human Physiology

Digestion & Respiration
Excretion & Circulatio
Reproduction

Bridge Course Exam for B.Sc. Semester I

Date-19/08/2023

Time: 1 hour

Instructions: -

- (1) There are total 30 Questions
- (2) All questions carry equal marks

Bridge Course Exam for B.Sc. Semester I

Time: 1 hour

Max. marks:60

Instructions: -

- (1) There are total 30 Questions
- (2) All questions carry equal marks

A. Cell Structure and Organization

1. Which of the following cell organelles is absent in animal cells and present in a plant cell?

- Cell wall
- Cytoplasm
- Mitochondria
- Ribosomes

2. Which of the following cell organelles is called the powerhouse of the cell?

- Nucleus
- Lysosomes
- Chloroplast
- Mitochondria

3. The liquid material in the nucleus is

- chromosomes
- bacteria
- nucleoplasm
- nucleolus

Session 2023-24

Bridge Course

Syllabus :

Unit – I

Atomic structure, Dalton model, Thomson's model, Rutherford model, Electric Configurations, Examples.

Unit – II

Periodic table and periodic properties, Ionic bond, Covalent bond, Metallic bond.

Unit – III

Hydrocarbons, Types of organic reactions, Addition reaction, Substitution reaction, Elimination reaction, Carbocation, Carbanion, Functional groups.

Unit – IV

System, surrounding, Types of system, Reversible process, Irreversible process, Gas Laws, Rate of reaction, Order, Molecularity.

BRIDGE COURSE REPORT-Bridge course is schedule for filling up the gap for newcomer students when they are admitted to some new course. The bridge course is also conducted to assess the students in the beginning of the course Bridge course was conducted for B.Sc Sem I students in session 2023-24 for the duration from **3 August to 23 th August.70 students enrolled in the department**

Time table for bridge course B.Sc Sem I Microbiology 2023-2024 (from 8 th August -23 August)

days	Timing
Monday	1.00p.m to 1.48p.m
Tuesday	1.00p.m to 1.48p.m
Wednesday	1.00p.m to 1.48p.m
Thursday	1.00p.m to 1.48p.m
Friday	1.00p.m to 1.48p.m
Saturday	1.00p.m to 1.48p.m

After 8 days the MCQ test was conducted in which 59 students appeared for exam. On the basis of results of the exam advanced learners and slow learners were identified. Syllabus is attached with the report document.

Question Bank- Question bank file at departmental level and University question paper soft copy downloaded and provided to the student through google classroom and via mail.

SYLLABUS OF BRIDGE COURSE :

1. **Origin and Evolution of life:** Discovery of Micro-organisms, Spontaneous generation and various terms used in microbiology
2. **Organization of Cells** – Various cell organelles and their functions
3. **Chromosomal basis of Inheritance** – Mendelian inheritance, Deviation from Mendelian ratio
4. **Genomics and Genetic Engineering** - DNA as Genetic material, modern concept of gene, Gene expression, RNA-structure, types and function,
5. **Biochemistry of cells** – various pathways in cell, Protein synthesis
6. **Biotechnology** - Process and applications
7. **Microbes in human welfare** – Environmentally important microorganisms and their role in Carbon , Nitrogen , Phosphorus, Sulphur cycle
8. **Human health and communicable diseases** – pathogenic and non-pathogenic micro-organisms, human hygiene
9. **Control of Communicable diseases**

MENTOR MENTEE PROGRAM 2023-24

Mentoring has been defined as the process by which one person, usually of superior rank and outstanding achievement, guides the development of an entry level individual, seen as the protégé or the mentee. Mentoring is the process of caring an individual who provides a young person with support, advice, friendship, reinforcement and constructive role-modeling over time. Mentoring is about building relationships.

Activities under Mentor-Mentee Program under DRB, SMV

First of all, all the students of Management Department have been equally divided and individual faculty member have been allotted the equal numbers of students. Each faculty is a **Mentor** and students under each faculty are **Mentees**.

Various activities have been conducted under mentor mentee program during the academic year 2023-24. Following are the activities carried out on regular basis:

1. A regular meeting is carried out in every 15 days. The main objective of these meetings is to discuss and solve the issues faced by the mentees personally, financially, and academically.
2. There is a leader under each mentor mentee group who takes regular attendance of members of their respective group and keep in records the agenda discussed in previous meeting.
3. Individual Mentor try to inculcate reading habits among the mentees and the general books apart from academic.
4. Every first lecture of the day is the activity lecture in which mentees under a single mentor perform some management activities guided by their respective Mentor. each group perform the activities for a week.
5. Various other activities apart from the regular activities conducted for the betterment of mentees.

COMMERCE ENHANCEMENT CELL

Report on "Seminar on Stress Management"

2023-2024

Resource Person: Mansi Sahajramani

Designation: Motivational Speaker, Happiness Life Coach & Spiritual Healer

Date & Time: 12/10/2023, 11:00 am

Venue: College Auditorium

Participants: 97 students and 10 Faculties

With an objective to understand the effects of stress and adopting effective stress management techniques, which would help to enhance students' physical and mental well-being, Commerce Enhancement Cell organized a seminar on Stress Management.

The guest was welcomed by Dr. S.V. Tewani, Vice Principal, who also gave the introductory speech. The guest told the students that stress is the body's natural response to various challenges, both physical and emotional. It is the feeling of being under pressure or overwhelmed due to factors like education, work, relationships, financial issues, or health concerns which results in weakened immune system, various digestive issues, sleep disturbances, leading to insomnia and fatigue, anxiety, depression, and mood swings and relationship problems.

Report of Educational Tour

Department of Biochemistry, Dada Ramchand Bakhru Sindhu Mahavidyalaya, has organized a Educational tour to central institute of cotton research, Nagpur in collaboration with Department of Biotechnology on 28th December 2023. Total number of students for tour were 28. Three teaching faculty Dr.S.P.Bagchandani, Dr.D.R Motwani and Ms.Rita Pawade were also present for tour. Timing for tour was from 12.00pm to 5.00pm. Crop improvement, Crop production, Mission and externally funded Research, etc are some of the special features of CICR.

Development of transgenic cotton varieties for sustainable bollworm management using available deregulated and non-deregulated indigenous new events available from Indian Research Institutions. Bt cotton technology was developed as an alternate strategy to the previously used hazardous insecticides to circumvent bollworm problem in cotton. Students of our college learned new technology in agriculture, of spraying pesticides by drone, there are always questions regarding its suitability, reliability, durability, and of course return on investment. The case is not any different for spray drones either. To some the technology is even so exciting that there have been multiple queries about how to get into a spray drone business and offer custom spray applications/services to growers. While spray drones are not completely new to agriculture, the recent improvements in technology capabilities as well as the availability of different commercial platforms have increased interest in this technology for aerial pesticide applications. All Students enjoyed a lot.
